

Waste Wheelers

Trade Waste Collection Service

Our Waste Wheeler trade refuse collection service is suitable for all situations where volume waste is generated, i.e.: shops, offices, public houses, restaurants, hospitals, etc.

Operated on a contract only basis the bins are emptied at regular, scheduled intervals as agreed – every contract being tailored to individual needs.

Charges for the service are made quarterly in advance to reduce our customers' administration costs, but the servicing schedule can be easily amended at any time. Payment is due on the presentation of each invoice.

660 litre Waste Wheeler

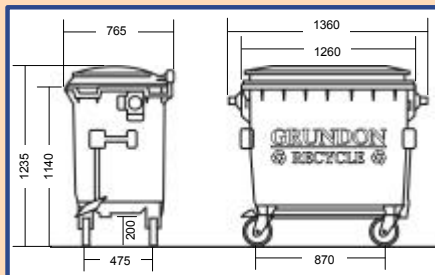

The European standard containers are available in three sizes, as illustrated below, and have many features which are a vast improvement on older, less sophisticated types of refuse containers.

Dust, Litter, Smells and spillages are all frequently associated with business and trade waste where older types of refuse containers are employed. The hygienic Grundon Waste Wheeler system can eliminate all of these problems easily and economically.
