

Small Mobile Compactor

This mobile combined compactor/container is serviced by a standard skip lorry. It only requires a car parking space adjacent to a single phase power supply.

The main advantages for removing waste with a small mobile compactor over more conventional skip containers are:

- Easy loading height.
- Only requires single phase 240 volt power supply.
- Wind scatter eliminated.
- Safety interlocking doors for maximum operator safety.
- Vermin unable to get access to rubbish.
- Fire hazard minimised.
- Increased payloads, reducing number of vehicle visits.

Specification
