Battery Recycling Services

This container is suitable for the on site storage and transport of sealed batteries. Batteries must be segregated in compliance with the Carriage of Dangerous Goods by Road Regulations 1996.

The recycling of Nickel Cadmium, Nickel metal hydride and Lithium Ion batteries is carried out in France and meets the most stringent safety and environmental standards. Lead acid batteries are recycled within the UK via approved metal recyclers.

Key constituents such as Lead, Cadmium, Nickel and Copper are recycled.

Dimensions		
<i>Volume</i>	400 litres	0.55 yds ³
<i>Length</i>	1 metre	39.4 inches
<i>Width</i>	1.18 metres	46.5 inches
<i>Depth</i>	0.6 metres	23.6 inches

For smaller amounts of similar waste, please ask us about our Haz-Box service.
